Our Legacy

From Vision to Leadership

35+ Years of Energizing the Nation with Excellence, Innovation, and Trust

For over three decades, Al Fanar Gas Group has been more than just a provider of energy, we have been a driving force behind the UAE growth, delivering safe, sustainable, and innovative gas solutions that power industries, businesses, and communities.

Founded in **1990** and headquartered in **Abu Dhabi**, our journey began with a bold vision: to redefine the energy sector through excellence, reliability, and innovative technology.

Today, as a key player in the UAE's energy sector, we have built our reputation on delivering LPG, SNG, and NG solutions with precision and commitment.

Who We Are

Your Trusted Energy Partner

Al Fanar Gas Group is the flagship energy subsidiary of **EHC Investment**, a company of **2PointZero** (an **IHC** subsidiary), Al Fanar Gas Group is scaling to accelerate the UAE transition to **smarter** and more **sustainable** energy systems.

With a strong presence across the UAE, Al Fanar Gas Group combines **35+ years** of expertise with cutting-edge infrastructure to ensure seamless energy delivery. Our solutions are built on strategic partnerships, advanced technology, and an unwavering dedication to sustainability because we believe energy should empower progress with **integrity** and **efficiency**.

Milestones of Excellence

Pioneering Gas Solutions Since 1990

1990

Introducing Gas Services to Al Fanar General Contracting, including LPG Design, Construction & Distribution.

2004

Establishing Al Fanar National Gas Services in Dubai.

2006

Designed and established the first natural gas network in Abu Dhabi, starting in Al Raha Gardens.

2008

Built the first synthetic natural gas station and the largest carbon steel infrastructure network for gas delivery to Al Reem Island.

2010

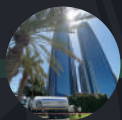

Completed the largest national infrastructure project, designing and executing natural gas networks for Yas Island including Yas Marina Circuit, Ferrari World, and five major hotels.

Strengthening Our Footprint

Key Projects Driving Our Expansion

2012

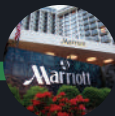

Established and operated the synthetic natural gas station for Etihad Towers skyscrapers exceeding 80 floors, serving more than 1,500 residential units and five districts.

2013

Launched Smart Meters, revolutionizing energy management, installed in Al Bustan mixed-use development.

2015

Signed a strategic agreement with Marriott International, strengthening Al Fanar's leadership in the hospitality sector.

2020

Partnered with DAMAC Properties to operate and maintain gas services for over 150 residential towers and commercial facilities.

2025

Active participation in major industry exhibitions such as ADIPEC, Egypt Energy Exhibition, and Make it in the Emirates.

Achievements

Leading with Standard

World-Class Certifications and Proven Leadership.

- ISO 9001: Quality Management Systems (QMS)
- ISO 14001: Environmental Management Systems (EMS)
- ISO 45001: Occupational Health and Safety Management Systems (OHSMS)
- ADNOC In-Country Value (ICV) Program: 55.5%

Market Leadership

Al Fanar stands as the **largest ADNOC-authorized LPG distributor** and a market leader in **natural gas operations** delivering unmatched expertise and adhering to the highest technical and safety standards.

Al Fanar was the first in the industry to design and **install high-pressure natural gas networks** both upstream and downstream capable of operating at pressures up to 32 bar.

This pioneering achievement sets a new benchmark for infrastructure reliability, safety, and scalability to meet the demands of modern developments.

From Gas to Energy: Building the Future

Powering the Nation's Growth with Innovation and Integrity

At Al Fanar Gas Group, our journey began with a bold mission to energize a young and ambitious nation. Since our founding in 1990, we have helped shape the UAE's energy landscape supporting its urban transformation through dependable and efficient gas infrastructure. Now, we are entering a new era. As the UAE embraces a cleaner, more diversified energy future, Al Fanar is evolving from a conventional gas provider to an integrated energy solutions partner.

Our transformation includes smart infrastructure, sustainable technologies, and forward thinking systems that meet the complex demands of tomorrow.

Cleaner. Smarter. Ready for the future.

Backed by Emirati expertise and a deep commitment to national priorities, we deliver comprehensive services beyond traditional gas offering reticulated networks, metering systems, energy retrofits, and technical consultancy tailored for modern living and industrial efficiency.

Subsidiaries

Strategic Arms of Al Fanar

Since 1990, Al Fanar Gas Group has been a trusted force in powering the UAE's growth, delivering safe, efficient gas solutions for residential and industrial needs.

Through our trusted **subsidiaries Greenpoint, National Gas, and Al Fanar Commercial Agencies (ACA)** we offer, specialized, end to end services across LPG systems, natural gas infrastructure, and advanced maintenance. Together, these entities reflect our unwavering commitment to quality, safety, and future-ready infrastructure serving communities, industries, and cities with integrity and innovation.

Today, we are entering **a new era**. As the UAE embraces a cleaner energy future, Al Fanar is transforming into a full-spectrum energy solutions partner **offering smart infrastructure, sustainable technologies, and consultancy tailored for industrial demands.**

Comprehensive Services

End-to-End Energy Solutions for Every Sector

Engineering:

We specialize in the design, consultancy, supply, installation, testing, and commissioning of gas systems executed to the highest industry standards.

Construction:

Our construction division ensures that all phases are executed in strict alignment with approved designs and project strategies, maintaining quality and compliance from start to finish.

LPG bulk supply:

We are officially approved by M/S ADNOC & M/S Emarat as one of the largest distributors for the re-sale and bulk distribution of LPG.

Billing & Collections:

We've reimagined energy billing to be seamless and transparent. Our advanced system delivers clear, traceable invoices and flexible solutions tailored to households, businesses, and government entities alike.

Maintenance & Emergency Support:

We provide comprehensive maintenance services for gas systems, adhering to the highest standards of safety, reliability, and quality assurance.

24/7 Customer Care

Our 24/7 Call Center is equipped with state-of-the-art dialer systems, ensuring rapid response to any emergency or customer inquiry anytime, anywhere.

Al Fanar Innovation

Driving Smart Energy Solutions

Smart Metering

Advanced smart meters enable real-time monitoring and instant balance recharges, providing customers with greater control and transparency.

Digital Customer Experience

Through our user-friendly mobile app, customers can effortlessly manage service requests, track technician visits, receive updates, and share feedback all in one intuitive platform, making energy management seamless and accessible.

Gas Happiness Center

Located in Abu Dhabi, our dedicated hub offers fast, customer-focused gas services, supporting all Al Fanar subsidiaries with expert assistance under one roof.

Technology Transformation

A fully integrated ERP system automates workflows and optimizes resource planning across logistics, billing, and field services, driving operational excellence.

The Genesis Dialler

Our proprietary system enhances customer engagement with real-time alerts, analytics, and automated communications to ensure prompt and clear responses.

Control Center Excellence

Centralized operations feature real-time GPS tracking and rapid issue detection, guaranteeing timely deliveries and consistent service quality across all locations.

Your Gas Innovation Partner

Powering UAE's Gas Future

With over **5,000 successful projects** across the UAE, Al Fanar Gas Group has established a legacy of excellence in gas infrastructure, distribution, and maintenance.

Serving residential, commercial, and industrial sectors, we deliver complex, large-scale solutions with unmatched safety, innovation, and efficiency.

Trusted by the UAE's leading developers, government entities, and commercial partners, we continue to drive the nation's energy progress.

Gas Network Operation

Yas Island, Al Raha Beach

Emergency operation and maintenance of gas distribution networks and CP system.

Gas Network Operation

Al Reem Island & Al Maryah Island

Operation and maintenance of gas networks and SNG plants.

(Packages 1 to 4)

ADNOC City Gas Network Phase 1

EPC works for city-wide gas network infrastructure.

Gas Network Operation

Yas Island & Saadiyat Island – Emergency Gas Services

Emergency response and PRS maintenance for natural gas distribution.

Gas Network Services

Geographical Area 1

Installation, EPC, and maintenance of LPG, SNG, and natural gas systems.

**LPG & SNG
Systems**

Installation and operation of LPG/SNG systems including tanks.

EPC Works

Full EPC for steel and PE gas pipeline networks.

Pipeline Services

Installation and modification of gas pipelines.

**System
Maintenance**

Operation and maintenance of PE and SNG networks.

**Natural Gas
Conversion**

Sheraton Hotel
Conversion of hotel systems to natural gas supply.

**Natural Gas
Conversion**

Park Hyatt Hotel
Upgrade and conversion of hotel to natural gas infrastructure.

(Packages 1 to 4)

NGD 15039 – Phase 1 City Gas EPC
Construction of underground pipelines for city gas network expansion.

Package 1

Al Reem Island Infrastructure
Development of gas transmission pipelines and distribution within road and utilities network.

Al Raha Gardens

Gas Network Installation (Phases 2 & 3)
Design and construction of complete natural gas pipeline systems, including
Gas transmission pipelines and internal distribution for over 1,100 villas.

Package 2B

Yas Island Infrastructure
Development of gas networks and transmission lines as part of infrastructure works.

Al Raha Beach

RBW6-10 Plot – Gas Network
Construction of natural gas distribution system for residential development.

Packages 5 & 6

Al Reem Island Infrastructure
Variation works for regional road and utility infrastructure.

Gas
Connection

Zayed City Emirati Neighborhood
Infrastructure works to connect neighborhood to Mahawi gas station.

Reem hills

Package 1 & 2
-Internal gas transmission and distribution network for 630 villas.
-Natural gas infrastructure network for 593 villas.
